FEATURE TRUSSES

Architectural feature trusses can form an outstanding centrepiece to make an impact in many new and existing buildings. They create an open and spacious feeling to any room and can be designed to suit the architectural character of the property.

There is a growing interest in the use of feature trusses in refurbishment and new build projects. Scotts of Thrapston manufactures these trusses in oak or softwood, to suit your application, and offers a marketing leading design, manufacture and supply service.

Scotts has an enviable reputation in supplying roof structures, feature trusses and joinery products, since 1920, and has supplied decorative bolted trusses for many varied applications, from housing and schools through to public houses and retail premises.

If you want to create a striking design feature within your property, then simply pick up the phone for inspiration and expertise from Scotts of Thrapston. Please call our sales team on 01832 732366 or send your enquiries to joinery@scottsofthrapston.co.uk
ROOF STRUCTURES
As a leading member of the Trussed Rafter Association, Scotts can design and supply all structural roof components from trussed rafters and room-in-the-roof trusses to roof structures for special applications. Scotts is the preferred supplier to many leading UK housebuilders and construction companies, handling a diverse range of projects.

ENGINEERED FLOORS
The easi-joist engineered floor system from Scotts provides a practical, cost-effective alternative to traditional timber joists. A precision designed and manufactured floor system, easi-joist combines stress graded timber with engineered metal webs to create a flooring solution to suit your specification.

PORCHES
Scotts manufactures and supplies bespoke timber porches and feature canopies for many housebuilders, contractors and developers nationwide. Manufactured from hardwood or softwood, with short lead times, Scotts offers flexibility and experience to meet site deadlines.

FEATURE TRUSSES
Decorative bolted trusses are often specified to make an impact in new housing developments. Scotts can produce feature trusses to suit the architectural character of the property and to create an open and spacious feeling to any room.

CAR BARNS
Scotts specialises in the design, manufacture and installation of timber car barns to meet specific planning and site requirements. Scotts car barns are designed to complement new build properties.

BESPOKE DOORS AND WINDOWS
For many years, Scotts has had an enviable reputation for producing bespoke joinery, of the highest quality, for both domestic and commercial projects. Scotts doors, doorsets and windows are tailored to suit individual customer requirements, specifically for new build projects.
