

TIMBER CAR BARNS & GARAGES

Established in 1920, Scotts of Thrapston designs, manufactures and installs bespoke car barns and garages for UK housebuilders, contractors and developers.

Scotts car barns are individually designed, by in-house architects, to fit in with the aesthetics and character of new house styles as well as the local surroundings. Scotts has many years of experience in meeting the demands of the individual housebuilders and their clients, whilst adhering to specific site and planning requirements.

Bespoke car barns, whether a single or four bay design, add value to any new housing development creating an essential shelter for motor vehicles as well as much needed storage space.

Whatever the requirement of your new development, Scotts offers very competitive rates, excellent service and the highest quality workmanship, from UK manufacture through to installation.

Scotts offers a market leading design, manufacture and installation service.

- Quick and easy solutions
- Extensive experience helping meet planning demands and site deadlines
- Bespoke design to fit in with your house styles and designs
- CNC machining of detailed connections e.g. oak posts and braces
- Directly employed installation team, working to site conditions

For further information or a quotation, please send your enquiries to info@scottsofthrapston.co.uk or call **01832 732366** for friendly advice and to discuss your specific project requirements.

ROOF STRUCTURES

As a leading member of the Trussed Rafter Association, Scotts can design and supply all structural roof components from trussed rafters and room-in-the-roof trusses to roof structures for special applications. Scotts is the preferred supplier to many leading UK housebuilders and construction companies, handling a diverse range of projects.

ENGINEERED FLOORS

The easi-joist engineered floor system from Scotts provides a practical, cost effective alternative to traditional timber joists. A precision designed and manufactured floor system, easi-joist combines stress graded timber with engineered metal webs to create a flooring solution to suit your specification.

PORCHES

Scotts manufactures and supplies bespoke timber porches and feature canopies for many housebuilders, contractors and developers nationwide. Manufactured from hardwood or softwood, with short lead times, Scotts offers flexibility and experience to meet site deadlines.

FEATURE TRUSSES

Decorative bolted trusses are often specified to make an impact in new housing developments. Scotts can produce feature trusses to suit the architectural character of the property and to create an open and spacious feeling to any room.

CAR BARNS

Scotts specialises in the design, manufacture and installation of timber car barns to meet specific planning and site requirements. Scotts car barns are designed to complement new build properties.

BESPOKE DOORS AND WINDOWS

For many years, Scotts has had an enviable reputation for producing bespoke joinery, of the highest quality, for both domestic and commercial projects. Scotts doors, doorsets and windows are tailored to suit individual customer requirements, specifically for new build projects.
