

BESPOKE LUXURY DOORS

Unrivalled quality and service

Scotts started producing specialist timber products in 1920. The company was founded on the principle of always putting quality first and since then it has gone from strength to strength to become a leader in its field. Today, the family owned company is widely recognised as one of the country's foremost suppliers of doors and specialist timber products.

Made in Britain

The bespoke doors division produces luxury doors to suit just about any specification – from basic paint grade flush doors through to high quality, veneered or traditional panelled doors for residential or commercial applications. By harnessing the latest in computer controlled manufacturing machinery, together with skilled craftsmen, Scotts can handle a wide range of door requirements and joinery projects from its own purpose-built factory in Northamptonshire.

Opening up choice for designers and architects

Scotts flush doors are ideal for new build or refurbishment projects and are created to meet your exact specification. Scotts can advise on technical issues and design options to suit your project.

Veneers

Using a wide selection of high quality veneers from around the world, Scotts is able to provide flush doors that will complement any interior and match almost any design scheme. With the use of modern laser cutting technology, and the availability of exotic veneers, Scotts offers a huge array of sophisticated patterns and detailed marquetry designs.

Laminates

The wide range of available laminates gives flexibility and choice to the specifier. Sleek, contemporary patterns, wood grains, saturated colours, metallic finishes and many more offer a vast array of possibilities. Hardwearing, durable and stable, laminates are suitable for most applications.

Unique and stylish designs

Scotts has supplied many individually designed doors for prestigious residential projects. Each door is created to meet the customer's unique design and performance specification.

This glazed bi-fold door allows light to flood through into a separate living area while giving some privacy and quiet. Or it can simply be folded open for parties or social gatherings. Scotts bespoke doors are the perfect choice when you need to commission a distinctive design, however simple or complicated.

Save time and money with pre-hung doorsets

Individually tailored doors are increasingly being requested as a pre-hung doorset, particularly in renovation and development projects. Customers prefer to have matching door frames for their new, stylish doors, instead of using the old, existing frame work. Specifying fully finished, pre-hung doorsets has been shown to be the most cost effective and efficient method of procuring doors for virtually any project.

Individually designed panelled doors

As bespoke joinery specialists, with more than 95 years of experience producing high quality timber products, Scotts is ideally placed to supply a wide range of traditional panelled doors. Panelled doors, whether internal or external, are generally manufactured in hardwood to provide structural integrity. Each door is individually created to maintain high performance standards, while preserving the appearance and character you require.

BESPOKE LUXURY DOORS

From basic primed flush doors through to the highest quality inlaid veneer or panelled doors, Scotts has the solution to meet most commercial or residential applications. The Scotts range of fire, acoustic, security and other performance doors are tailored to suit individual customer requirements, whether for refurbishment or new build projects.

PERIOD WINDOWS AND BESPOKE JOINERY

For many years, Scotts has had an enviable reputation for producing bespoke joinery, of the highest quality, for both commercial and domestic projects. In addition, Scotts manufactures and supplies bespoke timber windows, including sliding sash and casement windows and French doors, which combine the charm and character of traditional windows with current, thermal performance requirements.

ROOF STRUCTURES

As a leading member of the Trussed Rafter Association, Scotts can design and supply all structural roof components from trussed rafters and room-in-the-roof trusses to roof structures for special applications. Scotts is the preferred supplier to many leading UK housebuilders and construction companies, handling a diverse range of projects.

ENGINEERED FLOORS

The easi-joist engineered floor system from Scotts provides a practical, cost effective alternative to traditional timber joists, whether for domestic or commercial applications. A precision designed and manufactured floor system, easi-joist combines stress graded timber with engineered metal webs to create a flooring solution to suit your specification.

SUMMERHOUSES AND PAVILIONS

Scotts manufactures and supplies distinguished timber summerhouses and garden buildings. Bespoke leisure buildings and pavilions can also be supplied for a variety of purposes. The range of sumptuous summerhouses will enhance any garden setting and provide the perfect hideaway whilst every pavilion is purpose designed and manufactured to suit your exact needs.

EQUESTRIAN BUILDINGS

Scotts is the country's leading supplier of bespoke timber equestrian buildings with an unrivalled reputation for design, quality and customer service. The Scotts service includes initial design through to on-site construction. Whether a complete yard complex, an American barn or a simple field shelter is required, Scotts provides the perfect solution for you and your horses.

GARAGES AND OUTBUILDINGS

Scotts garages and workshops can be created to accommodate your treasured motor vehicle, whether a cherished classic car or motorbike or a family runabout. Scotts bespoke timber garages are designed and manufactured for each specific and unique application.

EDUCATION BUILDINGS

Scotts Education Buildings are designed to provide the ideal learning environment in which pupils can thrive and achieve their full potential. Contemporary, low carbon buildings from Scotts offer schools and nurseries a quick, cost effective and high quality permanent solution to increased space demand. From initial design through to completed building handover, Scotts turnkey service ensures peace of mind.

One-stop shop

Everything you will need to fulfil your door requirements, from flush doors and frames to performance doors and ironmongery, can be obtained with one simple call to Scotts. Whether you need multiple doorsets for a new-build scheme, bespoke luxury doors for a specialist application or a one-off panelled door for a refurbishment project, call 01832 732366 for friendly advice and to discuss your requirements.

Delivery

All doors and components are fully wrapped in protective packaging to ensure that everything arrives in perfect condition. Delivery is undertaken by Scotts, to fit in with your onsite build programme, although no allowance is made for offloading or site distribution.
