

Celebrating 100 years

TIMBER PORCHES & FEATURE CANOPIES

Established in 1920, Scotts of Thrapston manufactures timber porches and feature canopies for many of the UK's national housebuilders, contractors and developers. Whether your enquiry is for volume porches or bespoke feature canopies, Scotts offers you very competitive rates, the highest quality workmanship and excellent service.

Scotts offers a market leading design, manufacture and supply service.

- Lead time is typically 2 weeks from call-off, delivered direct to site on a 'Just in Time' basis
- Complete porch kits including structural and joinery timbers, plywood, gallows brackets, porch posts and post bases
- Machined to any section whether curved, pitched or angled using fully mortised and tenoned joints
- Manufactured from a range of timbers including Redwood, Whitewood, Oak, Douglas Fir and Accoya

For further information or a quotation, please send your enquiries to info@scottsofthrapston.co.uk or call 01832 732366 for friendly advice and to discuss your specific project requirements.

WITH PASSION

ROOF STRUCTURES

As a leading member of the Trussed Rafter Association, Scotts can design and supply all structural roof components from trussed rafters and room-in-the-roof trusses to roof structures for special applications. Scotts is the preferred supplier to many leading UK housebuilders and construction companies, handling a diverse range of projects.

ENGINEERED FLOORS

The easi-joist engineered floor system from Scotts provides a practical, cost-effective alternative to traditional timber joists. A precision designed and manufactured floor system, easi-joist combines stress graded timber with engineered metal webs to create a flooring solution to suit your specification.

PORCHES

Scotts manufactures and supplies bespoke timber porches and feature canopies for many housebuilders, contractors and developers nationwide. Manufactured from hardwood or softwood, with short lead times, Scotts offers flexibility and experience to meet site deadlines.

FEATURE TRUSSES

Decorative bolted trusses are often specified to make an impact in new housing developments. Scotts can produce feature trusses to suit the architectural character of the property and to create an open and spacious feeling to any room.

CAR BARN

Scotts specialises in the design, manufacture and installation of timber car barns to meet specific planning and site requirements. Scotts car barns are designed to complement new build properties.

CAR PORTS

Innovative car port designs are tailored to suit individual housing developments. Timber car ports offer a cost-effective solution, compared to steel and masonry, and can also be used for cycle and bin storage.
